STAT

INTRODUCING

the **90's-ERA** in
Metal Detection
upgrading security forever !

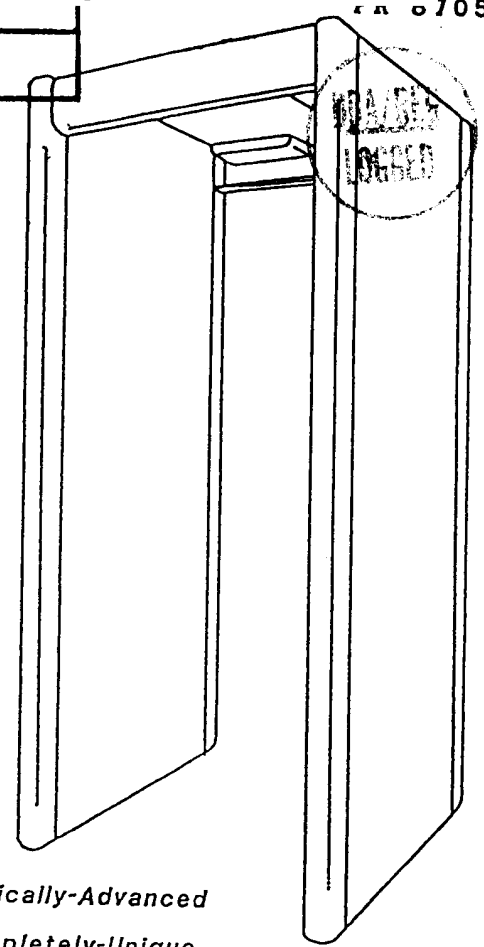

WORLD PREMIERE EXHIBIT

In conjunction with the annual conference of the
International Association of Airline Security Officers

WESTIN HOTEL 2401 "M" Street, N.W.
Washington, D.C.

MEDIA Room on Mezzanine Level

24 Jun: 2-6, 25 Jun: 9-6, 26 Jun: 9-4

*Radically-Advanced
Completely-Unique*

*totally obsoletes
all other brands*

As your inspection will discover, all other detector brands are instantly rendered "positively-archaic" by our new Design 700. Only size and shape stay familiar, reflecting the most complete change in metal detectors in nearly 15 years. The major progress will earn your enthusiastic acclaim.

*improved security
at lowest-ever cost*

Even construction is unlike any predecessor, and operational differences can be termed amazing. Security capability literally jumps-ahead, while associated costs simply plummet. As of now, weapons screening becomes accurately effective, definitely affordable, and very nearly convenient.

*low intro prices
w trade-ins taken*

Unable to compete with this overwhelming advancement, many brands may well quit the field. Acting promptly, before their field support disappears, can assure your service-continuity and gain a trade-in against even the low introductory price. Plus, you forestall upgrade by regulatory action.

*early action earns
spaced deliveries*

Heavy demand from professionals, private and governmental, may well strain production for an extended time. Then, to insure fair access to the intro prices and trade-in benefits, early orders will also be offered timed-out deliveries, matching up budgets and fundings over the next several years.

*plus, more benefits
worth your viewing*

Saving all of the intriguing details for your visit, as the originator and longtime leader of the modern-day industry, FRISKEM proudly premieres this first design for the upcoming decade. Well-worth your avid interest, do call us directly for more exhibit info, or at the Westin during the show.
